Dental Business System Essentials Masterclass

- ? Do you need better systems for predictability in your practice?
- ? Are you spending too much time putting out fires and managing crisis, instead of working on your future business plan?
- ? Do you know what metrics matter and how to analyze them to change strategy?

Overview

Join this interactive course that will teach you to:

- Essential key performance indicators so you can lead your business rather respond to the trends
- Know how to get accurate metrics from any software and take action to influence your outcomes
- Control your schedule and you control your life!
- Understand treatment conversion and follow up is the KEY to achieving goals.
- Learn trends and how to respond before they impact your practice negatively
- Fundamentals of financial management – reading a Profit & Loss and Balance Sheet to know what it’s telling you
- Anti-embezzlement and fraud strategies
- And much more!

Investment: **\$999**
